

Wright Design & Manufacturing, LLC

e-brochure

Wright Design & Manufacturing, LLC is a high quality precision manufacturer of aerospace components as well as general manufacturing including CNC machining ,CNC turning, and plastic injection molding. Our quality is among the highest in the industry.

Company Information:

Wright Design & Manufacturing, LLC
(physical) 5513 Highway 65 South
(mailing) 5710 Keystone Lane
Harrison AR 72601
870-429-6969
wrightdesign@ritternet.com

Current Aerospace Customer: Dassault Falcon Jet

Quality System, ISO 9000 compliant, and in the process of AS9100 Certification

Main scope of work: Quality Aerospace machining of aluminum, steel, plastics, and composites, plastic injection mold manufacturing, injection molding, and assembly.

3300 sq. ft. facility

Employees full time: 6

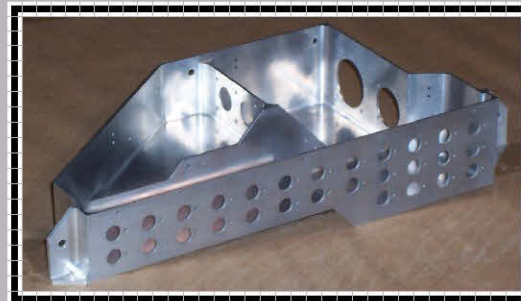

Equipment: 3 CNC Vertical high speed machining centers, 2 CNC Horizontal Turning centers, one 75 Ton Plastic injection Molding Machine, EDM Machine, and various other manual machines.

Duns # 361959039
SIC 3728
NIACS 336413

Critical technical data certification # 0049977
Federal ID 26-2592667
Small business (self certified)

CAD-CAM Software:
Solidworks Office professional 2008
Solidcam 2007 Version 11.7

Contact info:
Jamey Wright
